ABOUT THE BOARD

About the Board

MISSION OF THE BOARD
As servants of the public, our purpose is to protect public health, safety and welfare. Our mission is to proactively protect the health and welfare of Ohio’s citizens and to regulate the chiropractic profession with vision by setting high standards for licensure and by fairly and consistently enforcing those standards through examination of new doctors, biennial license renewal, clinic inspections, and timely investigation and disciplinary action when indicated.

HISTORY OF THE BOARD
The State Board of Chiropractic Examiners was created by the legislature with the enactment of Amended Senate Bill 75 which passed on July 15, 1975 and became effective on November 3, 1975. This legislation enacted Sections 4734.01 to 4734.19 of the Ohio Revised Code and established a five member Chiropractic Examining Board composed of four doctors of chiropractic and one member of the public. Prior to 1975, the Medical Board regulated chiropractors as limited medical practitioners.

On January 8, 2001, the Patient Protection and Professional Standards Act of 2000, was signed by Governor Taft and enacted into law on April 10, 2001. This new law was the first comprehensive revision of the Chiropractic Practice Act since 1975. This law modernized the Board’s practice act and revised the name of the Board from Ohio State Board of Chiropractic Examiners to Ohio State Chiropractic Board.

DUTIES OF THE BOARD
The Board fulfills numerous duties to make certain that the citizens of the state of Ohio are afforded care from competent and qualified chiropractic physicians. Those duties include licensing chiropractic physicians, licensing chiropractic physicians to perform acupuncture, biennial chiropractic and acupuncture license renewal, approving continuing education, issuing temporary licenses, investigating complaints, compliance initiatives and discipline and monitoring. The Board performs numerous other activities and services such as developing and maintaining the jurisprudence exam, license verifications, clarifying and interpreting the laws and rules, administrative rules filings and development, filing public records requests, legislative activities, and administrative functions such as fiscal, human resources, payroll processing, records retention, inventory management and website management.

Administrative Rules

The Board formulates rules to govern its actions and adopts rules governing the practice of chiropractic in accordance with ORC § 4734.10. Rules adopted under Chapter 4734 must be according to the procedures of ORC § 119. All rules are filed electronically with the Joint Committee on Agency Rule Review, the Legislative Service Commission and the Secretary of State’s Office pursuant to ORC § 103.0511. Public hearings regarding rule changes are held in accordance with ORC § 119.

- The Board did not file any rules to be adopted, amended or rescinded in FY 2012.

COMMON SENSE INITIATIVE

On January 10, 2011, Governor John Kasich signed Executive Order 2011-01K establishing the Common Sense Initiative (CSI) Office. The Common Sense Initiative is a process for independently evaluating the economic impact of state agency regulations on Ohio business. With this new process, stakeholders must be notified and provided the opportunity to make comments whenever the Board proposes to adopt, amend or rescind a rule that could have an adverse impact on business in Ohio. The proposed rules must also be filed with the CSI office and a Business Impact Analysis form must be completed by the Board. The CSI office compiles and reviews all interested party comments and provides recommendations to the Board for which the Board must provide a formal response. Once the CSI process is completed, the Board can then proceed to formally filing rules amendments.

During FY 2012 the Board notified stakeholders and initiated the CSI process for the following rules that it proposes to amend:

4734-7-01 Chiropractic license renewal requirements
4734-7-02 Standards for board-approved continuing education sponsors; CE held within the state of Ohio
4734-7-03 Continuing education offered outside the state of Ohio via supervised self-instruction
4734-7-04 Inactive chiropractic license; restoration of chiropractic license
4734-7-05 Forfeiture of chiropractic license; restoration of chiropractic license
4734-10-04 Acupuncture certificate renewal requirements

NOTE: The above rules were still in the CSI process at the conclusion of FY 2012 and had not been formally filed with the Joint Committee on Agency Rule Review.

FIVE YEAR RULE REVIEW

In accordance with ORC § 119.032, the Board reviews each of its rules every five years to determine whether to continue without change, amend, or rescind a rule. Prior to the scheduled review date of a rule, the Board reviews the rule to determine whether the rule should be continued without amendment, be amended or be rescinded, taking into consideration the purpose, scope, and intent of the statute under which the rule was adopted.

- During FY 2012 there were no rules up for five year rule review.
Continuing Education

Chiropractic licenses and acupuncture certificates must be renewed by April 1 of every even numbered year. The continuing education requirement for a chiropractic license is 36 hours per biennium and 12 hours per biennium for acupuncture certificates. It is the responsibility of the Board to review and approve continuing education sponsors and programs held within the state of Ohio. All programs registered and approved by the Board are posted on the Board's website.

In accordance with ORC § 4734-7-02, a program offered within the state of Ohio for continuing education credit must be sponsored by a Board-approved CE Sponsor. All Board-approved chiropractic colleges are automatically deemed Board-approved CE Sponsors. The following CE Sponsors were approved during FY 2012: International Chiropractic Pediatric Association and Adena Health Systems.

QUALITY INTERVENTION PROGRAM

The QIP is a confidential alternative to formal disciplinary proceedings. The mission of the QIP is to effectively address licensees with quality of care and communication issues that may have developed due to poor practice patterns or failure to keep up with current standards of practice. The QIP is under the umbrella of the Board’s investigatory process and for this reason participation in the QIP is confidential and not subject to discovery in any civil proceeding.

If QIP intervention is successful, the licensee will benefit by improving his or her practice patterns, thus providing valuable chiropractic care to his or her patients; the patients and community will benefit by having a better practitioner available to address their needs; the Board will have protected the public without having an adverse impact on the availability of chiropractic care.

- During FY 2012 there were no licensees invited to participate in the QIP however, two licensees who were invited to participate in the QIP in prior years successfully completed their participation in FY 2012.
